Important!
1. **The assessment rules for RPA projects are designed to cover the diversity and particularities of RPA project areas.**
2. **The grading allows each RPA Project to get to maximum the grade (10).**

Assessment rules:

A) **[6 points] Development**
   (1) **[3 points]** solution implementation:
      (a) **[1 point]** project overview (project structure, use of best practice rules);
      (b) **[1 point]** proper use of various RPA development capabilities available in UiPath Studio (custom activities, dynamic selectors, etc.);
      (c) **[1 point]** business exceptions handling (at least 2 exceptions);
   (2) **[2 points]** automation project documentation, i.e., PDD, (the template is provided by each mentor);
   (3) **[1 point]** task achievement as discussed with/suggested by the mentor.

B) **[4 points] Project Presentation**
   (1) **[1 point]** Overall project presentation with emphasis on the automation benefits;
   (2) **[1 point]** Provide arguments for the implementation decisions;
   (3) **[1 point]** Demo (2-3 scenarios, at least 1 scenario includes business exceptions);
   (4) **[1 point]** Provide answers to questions (at the end of the presentation).
